MEMORANDUM FOR: Chief, Information Review Staff
                  Chief, Information Systems Analysis Staff

SUBJECT   :   Classification Programs Responsibility

        1. It would seem to make sense to me from both organi-
zational and workload points of view that the activities of
the former Classification Programs Branch of ISAS, which
followed the responsible officers to IRS earlier this year,
be returned to ISAS. Since ISAS is more actively pursuing
liaison with NARS and since classification practices and
standards cannot be divorced from records administration,
there is a good deal of logic to this move. On the practical
side of things, we are all painfully aware that IRS is
swamped at present and probably will be for the foreseeable
future.

        2. It is requested that Chief, IRS and Chief, ISAS get
together and discuss this matter as soon as [   ] is   STAT
available to participate in the discussion and that I be
given an early recommendation as to the feasibility of this
change.   STAT

                                        Assistant to the DDA
